Online Application Orientation: Screening questions – which application? (1)

Your response to Screening Question 4.1 will determine the shape of your entire application. If it is a human subjects research, the study will automatically be directed to the full IRB application. However, before commencing, you will first be asked whether you would like to apply for an Exemption determination/approval.
Online Application Orientation: Screening questions – which application? (2)

If your responses to the Screening Questions result in a determination of “Not Human Subjects Research (NHSR),” you will be guided through an abbreviated application.
